

New! Water Feature by Hayward Offers Visual and Acoustic Appeal

The new *Deck Jet 500* provides a clear arching stream of water from the deck to the pool.

The *Deck Jet 500* is available in packs of 4 units and is the only deck jet in the industry with a height adjustment mechanism for perfect alignment with the pool deck.

The simple integrated flow adjustment allows easy adjustment for the height and distance of the water stream without the need for tools.

Contact Hayward IMG Customer Service for further installation and product details.

Model 3700 Value Light for a Creative Solution to Tight Budgets

The 3700 Value Light is a good choice for fountains, steps and benches where a pool sized light is not practical.

The 50W/12V halogen light has an optimized reflector assuring good lighting performance in a smaller fixture. The lamp is also field substitutable to an MR16 type LED white lamp locally available if the project specifies an LED light source.

The 3700 is complete with niche and light removal tool. The light is ideal for tight budgets when a feature light is still specified.

Hayward's Super Pump® is a Favorite

With its dependable performance, the Super Pump has been a preferred choice amongst pool professionals around the world for decades.

Hayward's Super Pump is a large capacity, high technology pump that blends cost-efficient design with durable corrosion-proof construction.

The Super Pump features a large "see-thru" strainer cover, super-size debris basket and exclusive "service-ease" design for added convenience.

The Super Pump combines advanced technologies with high performance for quiet, efficient and dependable operation.

Value Alternative for Quality Continuous Use Air Blowers

AIRTECH commercial blowers are ideally suited for spas, clubs or luxury villas which put a high demand on spa or pool aeration.

AIRTECH commercial blowers provide continuous operation that is impossible for a mushroom style blower. Built with rugged die cast aluminum construction and an outboard bearing, AIRTECH blowers run quieter and cooler than competing rotary blowers.

What's more, these blowers are value priced against other rotary blowers without compromising performance or reliability.

For public spa, pool and luxury pool applications, let AIRTECH blowers be your first choice in commercial blowers.

ProHayward Transformers Available for Immediate Shipment

12V/300W ProHayward Transformer

ProHayward low voltage swimming pool transformers are the preferred transformer around the world.

CE listed ProHayward transformers are designed to provide safe 12-volt electrical supply to underwater lights and low voltage fixtures of all types.

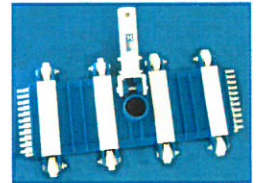

Advanced circuit protection resets automatically. The weatherproof housing features a separate wiring compartment for the fully encapsulated high and low voltage circuits.

Available in 300 & 600W as well as 12, 13 & 14V configurations.

ProHayward transformers complement Hayward lighting choices.

Long Lasting ProHayward 14" Vacuum with Side Bristles

The 14" vacuum head with fully enclosed heavy weights keeps the vacuum submerged and hugging the bottom and curves in pool walls.

Side and bottom bristles make cleaning tile pools super easy saving time and energy.

ProHayward Ladders are Totally Hayward

ProHayward ladders are the perfect choice for builders that want to offer a "Totally Hayward" package to their pool customers.

ProHayward ladders are AISI 304 stainless steel in easy-to-grip 43mm diameter tube size and are polished to a mirror-like finish. Each tread features the Hayward logo and each ladder is individually boxed.
